- Solvent based, smooth masonry paint
- Up to 15 years protection
- Easy to apply with good adhesion
- Resistant to moisture & alkali attack
- For exterior masonry
- Coverage up to 8m<sup>2</sup> per litre

## USEFUL INFORMATION

### Water-based paints

Using water-based products not only reduces the impact on the environment, it offers other benefits such as low odour, quicker drying and better colour retention\*. And with Dulux Trade Quick Dry Interior Range there is no compromise on the finish.

### Lead in paint

All Dulux paints are free from lead. For help and advice on preparing to painting an existing lead paint surface please call the Technical Advice Centre on 021 422 0222

### Tinting Best Practice

For best colour consistency, sufficient tinted paint, including touch-in, should be purchased at the beginning of each job from the same source.

### Diamond Matt

Full durability develops 7 days after initial application. Recommendations for cleaning surfaces painted with Diamond Matt can be found on the product datasheet, please visit [www.duluxtrade.co.uk](http://www.duluxtrade.co.uk) or call the Technical Advice Centre on 021 422 0222 for more information.
